

## RATE CASE RECORD READY FOR COURT

Washington Southern Will Carry  
Its Plea to Highest  
Tribunal.

### CLEMENCY DISAPPROVED

Court Officers Believe Henry  
County Negroes Guilty.  
Inspecting Railroads.

Clerk R. T. Wilson, of the State Corporation Commission, yesterday morning turned over to Hill Carter, counsel for the Washington Southern Railway, the voluminous record in the rate case affecting that road. The certified copy of the record, with the petition of the railroad, will now be presented to the Supreme Court of Appeals.

A decision in this case was handed down by the commission about five weeks ago, the railroad at once giving notice of an appeal to the Supreme Court.

The petition of the Washington Southern, asking to be allowed to increase its maximum passenger rate from 2 cents per mile, the existing rate, to 3 cents, was heard by the Corporation Commission last November. At the same time when all the leading roads of the State were put on this basis, but it was not a party to the proceedings later, when most of them were permitted to increase the rate to 2 1/2 cents.

Figures were produced to show the commission that the road was losing money on its strictly intrastate business. The trouble caused by the Alexandria situation was also a feature of the proceedings. It was shown that passengers pay the interstate rate between Alexandria and Washington and intrastate rate of 2 cents while traveling in Virginia. Conductors bear the burden of extra work.

While the commission did not approve of the increase in the rate to 3 cents per mile, it entered an order allowing 2 1/2 cents to be charged, putting the Washington Southern on the same basis with the other leading roads of the State. The railroad, however, was dissatisfied with this, and will ask the Supreme Court to grant an appeal.

### THINKS THEM GUILTY

Judge and Commonwealth's Attorney  
Oppose Clemency for Negroes.

In the opinion of the presiding Judge and the Commonwealth's Attorney, there is no good reason why the Governor should interfere with the sentences of John Eccles, James Hairston and Thomas Bailey, who are awaiting death for the murder of Sidney Wood, in Henry county. The Governor has resented the three negroes to November 11, to await the trial of Piggie Penn, another negro under indictment, who was apprehended in North Carolina a few weeks ago.

John W. Carter, who is acting Commonwealth's Attorney, writes the Governor that he and Judge Harvey have gone carefully over the evidence in the case, as well as the "confession" of Eccles and other papers submitted. He says that "we find nothing in the papers, nor have we knowledge of anything, which would cause a change of opinion. We believed at the time of the trial and believe now that the parties are guilty."

### DEADLOCK CONTINUES

Governor Will Not "Appoint" Major  
for Coast Artillery.

There is an inclination at the office of the Adjutant-General to smile over a comedy of errors appearing in a Norfolk paper regarding the coast artillery situation. This paper says it is understood that Charles Parker Breese will be "appointed" to the position of major of the battalion, over

which the officers have been in a deadlock for some time.

As a matter of fact, the deadlock shows no sign of being broken. At the last attempt to elect six votes were cast for Captain Breese and five for Captain Charles A. McLean, one of the latter's supporters being absent. The matter was referred to the Attorney-General, who construed the law, which says that a majority of the qualified voters is required, to mean that a majority of those present could elect. However, the Governor disagrees with this view.

The Governor has decided that he has no authority to appoint a major.

### INSPECTING ROADS

Judge Rhea Making Examination of  
Property in Southwest.

Judge William F. Rhea, of the State Corporation Commission, left last night for the Southwest to inspect the property of three railroads which have not heretofore been inspected. He will examine the roads and stock, with a view to seeing that the assessments are correct, and will also take a look at the general equipment and operation. He will be absent about three days.

One of these roads is the new Holston River Railroad, built by the Southern Railway, which is a branch of the Virginia coal fields to the Carolinas and Tennessee. The road extends from Moccasin Gap, where it connects with the Virginia and Southwest, another Southern property, to Persim, in Hawkins county, Tenn., where it connects with the Rogersville branch. By the use of this road a long haul through Bristol is saved and very heavy grades are avoided.

Other railroads which Judge Rhea will look at are the Virginia and Kentucky and the Wise Terminal. These constitute a line from Norton to Wise Court House.

### Tents for Camp.

Adjutant-General Salter yesterday shipped a supply of tents to Fort Monroe for use during the encampment of coast artillery from August 8 to 18.

### WHOLE FAMILY ILL

Two Sisters and a Brother Patients in  
Richmond Hospital.

Two sisters and a brother, all of Chesterfield county, are patients in the Memorial Hospital. They are Les-Maria, Maggie Cox. Each one of the three is receiving treatment of a different nature.

Mr. Osborne is being treated for paralysis of the feet, which the physician says is largely due to his great bulk. Mrs. Cox will probably undergo an operation, and Mrs. Talcott is being treated for injuries received in a street car accident.

Miss Parker Leaving.

In the voting contest originated by the Bijou Theatre for the most popular business girl in the city, ending September 27, Miss Grace V. Parker stands first with 3,324 votes. Her credit, Miss Nellie Chester stands second, with 1,358. There are about twenty other contestants.

## MILITIA WILL ASK FOR FEDERAL PAY

Believed That Congress Will  
Soon Agree to Compensation  
for Drills.

Local militia officers believe the time is not far distant when the campaign to provide Federal pay for the officers and men of the National Guard will be successful. The militia of State after State has fallen into line in the work of inducting the movement, joining in memorials to Congress to enact the pending or some other bill.

Inasmuch as under the existing status the militiamen are to all intents and purposes a part of the standing army of the United States, it is felt they should be paid for the time they devote to the service.

The latest organization to fall into line is the organized militia of Iowa. The officers and men have gone on record as petitioning Congress for action.

The plans of those engaged in promoting the matter embrace a scale which runs as follows:

**Pay of Officers.**

The commanding officer of each administrative unit (the colonel of an organized regiment, the major of a detached battalion or the captain of a detached company) to receive 50 per cent of the pay of his grade. The adjutant, where the services of one are required, to also get 50 per cent of the pay of the grade in the regular army. Company lieutenants are to receive 25 per cent, and all other officers 15 per cent. In addition, it is planned to have one member of each company, other than their captain, to devote all of his time to company affairs under the direction of the commander, at a salary of \$60 per month.

Enlisted men are to be paid as follows for each regular weekly drill of not less than two hours, not to exceed fifty drills per year: Company first sergeants, \$2; company quartermasters, sergeants, \$1.75; duty sergeants, \$1.50; corporals, \$1.25; privates, \$1. In addition each enlisted man is to be paid \$1 per day for duty on small arms practice, not to exceed five days for each man per season.

### PRICE CONVICTED

Appeals to Hastings Court When Fined  
for Selling Liquor.

W. A. (Catty) Price, colored, was fined \$100 and placed under \$500 security for twelve months in Police Court yesterday morning on a charge of operating an objectionable resort at 411 North Seventeenth Street.

The arrest of Price grew out of the case against Lucinda Davis, who was arrested on a charge of selling liquor without a license at the place. She stated that she was not responsible for what went on in the house—that Price was the lessee. Some days ago officers raided the house and discovered white and negro men drinking together. The case against the woman was dismissed.

Price testified that he rented the house for the woman, and that he did not live there. The case was submitted without argument, and Justice Gruchfield immediately rendered his decision. Price appealed.

### MORE CHICKEN THEFTS

William Turner Caught as He Came Out of  
Hen-House With Chickens Under His Arm.

William Turner, colored, charged with trespassing on the property of H. E. Mayo, on the Nine Mile Road, was arrested yesterday and locked up in the county jail. A further charge of burglary will be entered against the man when he is brought before Magistrate to-day.

Mr. Mayo alleges that Turner broke down the wire screening behind which he kept his chickens and went after the chickens together. The negro escaped for the time, but was captured yesterday.

### DEBATE TO-NIGHT

Candidates for Congress Will Speak in  
Washington Ward.

Representative John Lamb and Senator T. Ashby Wickham, the candidates for Congress from the Third District in the coming Democratic primary, will have a joint debate in Washington Ward to-night. The meeting will be held in the former Manchester city courthouse.

Judge Wickham is likely to have some things to say about his opponent's record in Congress, which Captain Lamb will defend. It is thought the debate may develop something interesting.

## 15-YEAR-OLD GIRL SNATCHES PURSE

Thelma Payne Caught in Residence of R. W. Jones on  
Pine Street.

Thelma B. Payne, who first gave her name as Ethel Brown, fifteen years old, daughter of John Payne, of 529 South Pine Street, was caught in the act of robbing the home of R. W. Jones, 5 North Harvie Street, yesterday morning.

The girl entered Mr. Jones's residence, and when discovered by Mrs. Jones said that she was seeking employment. She suddenly grabbed Mrs. Jones's purse, containing some stamps and 37 cents, it is alleged, and ran out. While Mrs. Jones telephoned to the Second Station, Mr. Jones pursued the girl and caught her, bringing her back to his house. Bicycle Policeman Belton was sent in answer to the call, and the girl was taken to the First Police Station, whence she was transferred to the Associated Charities, to be detained until her appearance in Police Court this morning.

The girl took her arrest calmly, and gave no explanation of her alleged wrongdoing. There have been several petty robberies of this kind, and Thelma Payne is suspected of being the perpetrator.

The Payne family recently came to Richmond from Louisville, Ky. Mr. Payne is employed in the Old Dominion Iron and Nail Works, at Belle Isle.

### WIFE CHANGES MIND

Viola Carter Decides That Her Husband Is  
All Right and Will Not Beat Her Again.

The man-handled but faithful wife entered again upon the scene of action yesterday in the magistrate's court of Henrico county when Viola Carter, colored, plead with Magistrate Puryear to cancel the charge against Delaware Carter, which she had brought for her husband's alleged assault and battery on her body. Yesterday, however, she had changed her mind, and upon her husband's promise to refrain from further maltreatment she begged him off.

Magistrate Puryear agreed not to impose a fine, but the costs of the case were assessed against Carter, which by the way, the wife paid.

from \$4.00 to \$6.00 per annum. Applicants may stand the examination in Richmond.

Only males will be permitted to try for this examination. The departments at Washington are filled with young women stenographers and typists, but the men who desire such work are few. According to the notice of the examination issued by the Civil Service Commission, at several recent examinations there have not been enough applicants to fill the vacancies.

It is contended by the department chiefs that women are not as well adapted to the work as men. They may not be promoted to many positions that men fill with success. For this and other reasons Uncle Sam has determined to recruit from the whole country men stenographers to fill clerkships in the departments.

### GATES CASE CONTINUED

Church Hill Woman Charged With Obtaining  
Goods Under False Pretenses.

The case against Mrs. Elizabeth Gates, arrested last week by Detective Sergeant Wiley and Kellam on suspicion of having obtained a quantity of goods under false pretenses from many merchants, was continued in Police Court yesterday morning to August 11, one of her array of counsel being absent. Her counsel consists of B. T. Crutcher, Gilbert Pollock and Benjamin T. Barrett. The prosecution will be conducted by Commonwealth's Attorney Polkes and Harry M. Smith, the latter of whom, it is understood, represents the Retail Merchants' Association.

Mrs. Gates now lives at 607-A North Twenty-seventh Street. She is alleged to have used different names in making purchases, which have not yet been paid for. It is said, however, that she has paid some of her bills since her arrest, and all may be paid before the case comes to trial.

**Police Court Cases.**

Joseph Page and Henry Terry, colored, charged with stealing a dress from Mack Stern, appeared in Police Court yesterday morning. The woman was sentenced to thirty days in jail, but the man was dismissed.

The case against James Bates, colored, charged with seriously wounding Henry E. Chorn, was continued to August 5.

### Around the Hotels

"Do you hear any kicking on the Swanson appointment to the senatorship?" asked an enthusiastic supporter of the Pittsylvania man last night.

"The press and the people everywhere, so far as I can judge, are giving their hearty endorsement."

"While the appointment was pending here and there could be heard suggestions of good men whom Governor Mann might appoint. Of course, there were such men, but the vast majority of the people wanted Swanson. There can be no doubt that the Governor knew this, and did what he thought was the public will."

"The Swanson supporters kept rather quiet, feeling that there was little doubt of the appointment of their man. Had the Governor named any one else, they would have been heard from in a kick which would have sounded far and wide."

"You will see that Swanson will make his mark in the Senate. He has the ability, the energy, the enthusiasm, and more than all, he has the nerve to do what he thinks is right."

Richmond hotels are looking forward to sundry conventions in the near future. Things have been unexpectedly lively in hotel circles during the heated term, and there has been nothing like the slump that was expected. Not only have traveling men been fairly numerous, but visitors from all over the State have been here in far greater numbers than any one had looked for, considering the fact that no State campaign is in progress.

With the early opening of the convention season the hostesses will soon have all they can handle once more.

Conventions slated for the near future in Richmond are as follows: National Association of Mercantile Agencies, August 16-18; Ancient Order of Hibernians, August 23-24; National Association of First-Class Postmasters, September 28-29; National Association of Railway Signalmen and Engineers, October 14-15.

In addition, two negro organizations will meet here early in September—the Grand Fountain of True Reformers, and the Independent Order of St. Luke.

## S.S.S. FOR SCROFULA

The children of blood tainted parentage inherit a polluted circulation to burden the system with disease and suffering. Swollen glands about the neck, weak eyes, running sores and abscesses, pale, waxy complexions, and frail, poorly developed systems are the most usual ways in which the disease is manifested. In some cases the blood is so filled with the scrofulous germs that from birth, life is made miserable with suffering, while in other cases it is held in check during young, vigorous life, but when the system begins to weaken, especially after a spell of sickness, the ravages of the disease will commence. S. S. S. is Nature's perfect cure for Scrofula, made entirely of healthful roots, herbs and barks, a safe medicine for young or old. S. S. S. goes into the circulation and drives out all scrofulous matter, and entirely removes the cause. It supplies the blood with the healthful properties it is in need of and in this way builds up weak, frail, disease-burdened persons and makes them strong, robust and healthy. S. S. S. cures Scrofula, because it is the most perfect of all blood purifiers. Book on the Blood and any medical advice free to all who write.

## REMANDED TO TOMBS TO AWAIT SENTENCE

New York, August 3.—Erwin J. Wider, the young cashier, who to-day pleaded guilty to the indictment found against him in connection with the embezzlement of the funds of the Russo-Chinese Bank, was remanded to the Tombs for sentence on August 10.

The indictment against Wider specifically charged him with stealing stock valued at \$114,000. On his plea of guilty to this indictment, he can be given a life term, or a term of years, from five to ten years. The district attorney's office, however, has intimated that it might ask Wider's in-

diction on the other larceny charges against him in connection with his wholesale stealings of the bank's securities.

Wider's delinquencies had continued over a considerable period coincident with his extensive speculations in Wall Street, while he was receiving a salary of \$120,000 a year. While waiting in the prisoner's pen, to be taken back to the Tombs after his sentence to-day, he took occasion to deny the report that he had made a profit in his cotton speculation and had money hidden away.
